Painted Jigs

The painted jig is our #1 best-seller. Available in one-, two-, or three-colors. Many have a highly reflective glitter applied over the jig colors after a clear coat. We use a high-quality, sharp hook, and our plastic worm-keeper wire is on every jig. Our large assortment of colors will match all water conditions. These are truly superior products that you can depend on.

Available in 3/32, 1/8, 3/16, 1/4, 5/16, 3/8, 1/2, 5/8, 3/4.

Glitter Jigs

Hutch's personal favorite is the glitter jig. He doesn't go fishing without them! With the glitter finish, these jigs reflect light like no other on the market. We have several custom one-of-a-kind colors to choose from. In clear or dirty water, these jewels are fish-catching machines. They have the same plastic worm-keeper wire and quality hooks as the painted jigs. You just can't go wrong with them.

Bucktail Jigs

The quality of our bucktails is second to none. We start by using only the best bucktails or fur available on the market. Our jigs are then tied by hand here in the USA. All of these jigs are at least 2 inches long and are fade resistant.

They are all ready for fishing right out of the package as is, or you may add your favorite live bait to tempt the fish even more. Many of our colors have a mylar tinsel added to them for a unique, one-of-a-kind appearance.

Available in 3/32, 1/8, 3/16, 1/4, 5/16, 3/8, 1/2, 5/8, 3/4 oz.

Glow Bucktail Jigs

For several seasons a lot of people have encouraged me to make a glow bucktail jig. I didn't want to just do this with a glow jig head. I have finally found some very good glow tinsel to do this with. We call them the "Glow Core Bucktail Jigs". The nice thing about these jigs is the glow tinsel is a bright color without being charged with light. We have tested these jigs and have caught fish with and without charging the jig so they can work either way. There are several fish catching colors to choose from to give you an edge in both night and sun light conditions.

Available in 3/32, 1/8, 3/16, 1/4, 5/16, 3/8, 1/2, 5/8, 3/4 oz.

Pro Series Bucktail Jigs

For the past several years I have been tying these jigs for a handful of hard core fisherman. I have finally decided to make them available to everyone. These jigs really shine under dirty water conditions. On several occasions I have had fish hit these jigs so hard that they came close to taking the rod right out of my hand. That's how aggressive they will hit these jigs. Available in colors that no one else offers along with our superior finish and sharp hook you can't go wrong on putting some of these in your tackle box.

Bucktail Flies

Bucktail flies have been a well-kept secret for the past few years by some of the touring pros on the Walleye circuits.

Our flies can be pulled singly or in tandem. We use a #2 sharp hook and all of our many colors are hand-tied. Bottom bouncers, three-ways, or just a couple split-shots in front can produce quality catches. These can also be run with a jig or crankbait as well.

Glitter Crappie Kips

Some of you may remember years ago we had a line of kip tail jigs for panfish. When the old boy that tied all of these pass away I just drop the line having no one to tie them up. Several shops have been after me for years to bring them back, so we did. Got a bunch of nice looking colors that have been tested, a lot by me, and they all work fantastic for crappie, gills and perch. We put these on a extra sharp red sickle hook in 3 perfect size weights. The pan fisherman will be very excited about these!

1\24oz & 1\16oz with #6 hook and 1\8oz with #4 hook.

Glitter Crappie Jigs

For many years I have been making this little jewel of a jig for myself and few close friends for pan fishing. We use a extra sharp black nickel sickle hook and have this jig in 4 different weights. Four fish catching colors that fish have a very hard time throwing the hook on, especially perch. With the glitter head no matter if it's clear or dirty water the fish will seek this bright jig out. Tell your customers they better have a pair of pliers because these hooks don't like to let go.

1\32oz with #8 hook, 1\24oz & 1\16oz with #6 hook and 1\8oz with #4 hook.

GCJ03 Silver

GCJ11 Chartreuse

GCJ20 Hot pink

GCJ21 Gold/orange

Holographic & Painted Hawg Spoons

This lure has been around a long time and has proven itself to be a fish-catching machine. Casting and swimming it, vertically jigging it, casting and jigging it like a jig, or dropping and holding it are some of the methods that make this lure a real winner. Always tie directly to the wire form near the eye as using this with a snap takes away a lot of action.

The available weights for each color of jig are listed below it in the picture.

LS01 Firetiger prism
sizes: 1/4, 1/2, 3/4 oz

LS03 Char & white
sizes: 1/4, 1/2 oz

LS05 Orange prism shad
sizes: 1/4, 1/2, 3/4 oz

LS09 Candy cane glow
sizes: 1/4, 1/2, 3/4 oz

LS14 Black prism shad
sizes: 1/4, 1/2, 3/4 oz

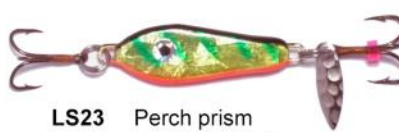

LS15 Purple prism shad
sizes: 1/4, 1/2, 3/4 oz

LS16 Blue prism shad
sizes: 1/4, 1/2, 3/4 oz

LS21 Orange prism krush
sizes: 1/4, 1/2, 3/4 oz

LS23 Perch prism
sizes: 1/4, 1/2, 3/4 oz

LS28 Bee
sizes: 1/4, 1/2, 3/4 oz

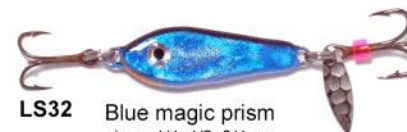

LS29 Red head
sizes: 1/4, 1/2, 3/4 oz

LS30 Woody
sizes: 1/4, 1/2, 3/4 oz

Holographic Red-Eye ShadSpoons

Here is another jigging spoon that produces. The Red Eye can be fished just like the Hawg Spoon, but it can also be trolled. It's perfect for casting and retrieving with jerking motions. It just drives the fish crazy! We have 13 great colors to choose from. They are available in 3/8 oz. making them perfect for casting or vertical jigging. RE-05, RE-06, RE-08 and RE-30 are also available in 1/2 oz.

RE-04 Clown prism

RE-06 Silver prism, black back, red throat
sizes: 3/8, 1/2 oz

RE-09 Silver prism, purple back, red throat
sizes: 3/8 oz

RE-05 Silver prism, blue back, red throat
sizes: 3/8, 1/2 oz

RE-07 Char prism, orange back
sizes: 3/8 oz

RE-14 Silver prism, blue back, black scale, goldish lateral line
sizes: 3/8 oz

RE-08 Char prism, green back, orange throat, black stripes
sizes: 3/8, 1/2 oz

RE-15 Silver prism, blueish greenish back, pink lateral line, black dots

RE-30 Char/orange back, black squiggly lines
sizes: 3/8, 1/2 oz

RE-31 Char/blue back, red squiggly lines
sizes: 3/8 oz

RE-32 Char/green back, red squiggly lines
sizes: 3/8 oz

RE-33 Purple/orange back, blue squiggly lines

Holographic Casting Blade Baits

This lure can be vertically jigged or cast and steadily retrieved. However, Hutch designed it to be cast and jigged off the bottom as you retrieve it. This lure is lethal on walleyes and sauger in the spring, fall, and into the winter. It has some of our best prism color combinations and two nasty hooks. We recommend using a #1 snap when fishing this lure for optimal performance.

Available in 1/8, 1/4 and 3/8 oz.

3/8 oz.

CBB04 Silver prism, char back, red head

Holographic Blade Baits

Here is another great line of tackle to add to your shelves. This lure has the finest finish on the market today, along with a quality sharp hook. We recommend that you vertical-jig this blade, but it can be cast and retrieved with success as well. It's deadly on walleye and sauger but will catch most any species that swims. White bass just go nuts over these in May and June. We recommend using a #1 snap when fishing with this lure. Available in 1/4 and 1/2 oz.

4" Ring Worms

It seems like this jewel has been around forever. It has helped to catch just about every species of fish there is. We have multiple proven colors to choose from, as well as several custom colors only available here. Put it on a jig, Texas-rig it, or use it as a trailer on a spinner bait. The possibilities are endless. This is a money-maker that you can't go wrong with.

Sauger Slayer

Ok let's talk flukes. About 10 years ago or so when I first started fishing the fluke I didn't know what to expect. As much as I hate to say it considering I've been pitching ringworms for over 20 years now. If I was stuck with only using one of the two for walleyes\saugers it would be the fluke believe it or not. It's the hardest piece of plastic that I have to try to convince people to try. But I will tell you that 99 % of the people I get to try a fluke have come back multiple times and bought more and that's a fact! So we have come up with some custom colors that are simply awesome. The nice thing about this body is that there are grooves in the body behind the dorsal fin. So this tail gets side to side action in it. We have nick named this tail the Sauger Slayer. The main thing here is to make sure you try some of these because if you don't you have just plain miss the boat!!!

SS27 Clear, purple glitter, char, silver glitter tail

SS30 Smokey shad, char, silver glitter tail

SS33 Purple, clear tail, orange and gold glitter

Wally Wackers

Well it took a while to get this done but we now finally have a "WALLY WACKER". Comparing this to the Sauger Slayer it is 1¼ inch longer, a little bit wider and deeper. The big difference is the tail. Now it has a small tail just like a ringworm. With just the slightest of movement the tail has excellent action. The tail is also in the upward position so dragging or pumping this on the bottom produces good tail vibration. With 5 new colors to choose from it's hard to decide which color to try first. Not only is this a great piece of plastic for walleye and sauger. Smallmouth love to munch on these. It's a new version of plastic that needs to be in everyone's tackle box. There will be more colors coming in the near future.

Wally Bangers

For several years a lot of my loyal customers, tournament fisherman and some guides I know have been after me to come up with a bigger piece of plastic. We now have what should make everyone happy. We have named it "Hutchies-Wally-Banger". What you have here is basically a fluke body, my personal favorite pieces of plastic, especially for big fish. This body then ends up with a ring worm tail. This is a true 5 inch body but its streamlined and looks as natural as a true big minnow swimming through the water.

They're made with virgin plastic so there nice and soft for the finicky bites and the tail is up so you can drag it slowly and still get good action. We have 9 different fish catching colors to choose from with more coming. In good current or snap jigging you get action from both the back half of the tail sweeping from side to side as well as the curl tail on the end. Believe me when I tell you that this is without a doubt a tail that has to be in your box no matter what season it is.

Here is one other thing we've added too. A normal jig will without a doubt work with these bigger tails. But we have made some special jigs for these bigger pieces of plastic. Our normal hook size for a 1/8 & 3/16 is a 1/0. Most manufacturers use a # 1 but we are offering these two sizes in a 3/0 hook. For a 1/4, 3/8 & 1/2 we use a 2/0 but now you can get them with a 4/0 hook. These are great for any type of big bulky baits. You can look at the comparison chart below to get a better idea. We will sell the 1/8, 3/16, 1/4, 3/8 & 1/2 in either plain lead, gold on top silver on the bottom or purple on top and silver on the bottom. These will be the only colors we will have at this time.

Soft Body Shads

Here's a piece of plastic that's been around a long time: the 3" shad body. It's been forgotten with all of the new plastic over the past couple years, but make no mistake, this is a fish-catching machine.

I love fishing this in the fall and winter. When casting it, I personally like to snap jig it back. You will get bites that almost rip the rod right out of your hand. When vertical jigging it, I like to drop it to the bottom, pick it up a couple inches, and then hold it still. The fish will come up and just plain crush it.

I have some of the good old dependable colors as well as a few custom colors to choose from. This is also a dynamite lure for the smallies in the Spring and Fall when they are staging on the rock. Try some, you won't be disappointed.

Paddle Tails

We have brought on another style of plastic. This one has been around along time and has a proven record of catching walleye, sauger as well as many other species of fish on a regular basis. 2 of the many different ways to fish this durable tail are to be fish on a jig, or on a plain hook on a 3 way. We have 6 colors to start with and plan on adding more in the near future.

PT06 Wallygreen, gold glitter

Swim Jigs

We begin with a molded head that won't tip to the side no matter how fast you reel it. We use a razor-sharp hook followed by a superior finish. Unlike a lot of jig manufacturers, our jigs have full-bodied skirts. We have 61 different colors to choose from. All of the swim jigs have a plastic grub keeper. When you slide the grub over the wire, it's going to stay there. Our line of 5" grubs is a perfect match for these jigs.

Available in 1/4 oz.

Swim Jig Grubs

Here we have a true 5-inch tail. The grubs are made with virgin plastic and so are as soft as can be.

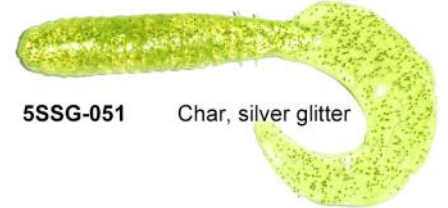

As the actual tail comes out of the body, it's nice and wide, then it gradually chokes down to a fine tip. Now you have a tail that has a wide wobble that eventually at the tip of the tail has a very fine, aggressive action to it — the best of both worlds!

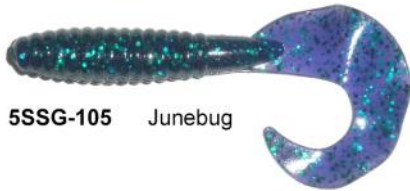

5SSG-002 Blue pearl, black glitter

5SSG-012 White

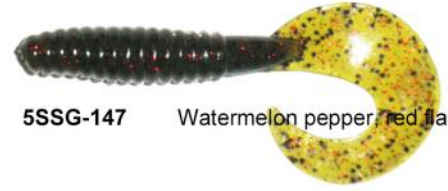

5SSG-051 Char, silver glitter

5SSG-147 Watermelon pepper, red flake

5SSG-150 Blue pearl, clear glitter

5SSG-151 Watermelon candy

5SSG-SPEC2 Blue, blue flake

Flippin' Jigs

With the tapered head design this jigs goes through the weeds just as good as the wood. The head is also designed to stand up when sitting still making it easier for fish to pick it up. We use a Gamakatsu hook and all jigs have hand tied skirts and a grub keeper wire built in. This style of jig has been copied many times but never duplicated. Only available in 3/8.

MM01 Black head, blue barb wire, blue dust, black

MM06 Black head, black, purple tinsel

MM26 Black head, dark watermelon pepper, purple tips

MM27 Black head, june bug on top, dark watermelon pepper on bottom

MM28 Brown head, purple, barb wire on top, P-B-J on bottom

Football Jigs

The football jig is one of the most versatile jigs on the market today. Our jig has a 60-degree flat eye coming out of the head to help overcome all obstacles and improve hook sets, along with a plastic keeper. A black nickel Gamakatsu hook with a super-hard finish makes this a great jig. All of our jigs are tied by hand with some of the greatest fish-catching colors on the market today!

Available in 3/8 and 1/2 oz.

FBJ01 Black head, black & blue

FBJ07 Brown head, purple & brown pumpkin

FBJ09 Brown head, green pumpkin, orange & brown

FBJ06 Brown head, green pumpkin & blue

FBJ08 Brown head, green pumpkin & brown

FBJ10 Brown head, green pumpkin candy & watermelon

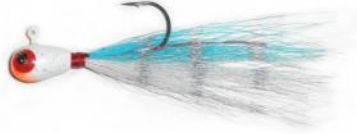

New for 2024

Bucktail Jigs

We have created 6 new exciting colors to add to our arsenal of bucktail jigs. We started with 14 different colors and these 6 colors by far were the best consistent fish catchers we used throughout last year. There are color combinations for both clean and dirty water. There are some new colors of stripping on some of the jigs and a couple of new colors of buck to help duplicate natural bait fish colors like a river shiner and perch.

BJK116 Blue shiner head, red & white, blue stripes

BJ117 White Shiner head, Flo blue & white, silver stripes

BJ118 Purple & Chart head, purple & chart, gold stripes

BJ119 Chart Orange shiner head, orange, Flo chart & red, black stripes

BJ120 Silver-Chart-Red head, Flo chart & silver, orange stripes

BJ121 Chart-Orange-Lime head, black, dark chart & orange, green stripes

Soft Body Shads

We added 4 new colors of shad bodies in this line. The old tried and true piece of plastic in the past couple years has been making a comeback. This body has great tail vibration along with some fantastic color combinations. The body is very soft and flexible unlike so many out there that are solid as a rock, but yet strong enough for the plastic to last being re-hook multiple times.

SBS07 Golden Shad

SBS08 Rainbow Trout

SBS09 Red Pearl

SBS10 Smokey Chart Shad

Glitter Crappie Kips

This past spring several of the stores we sold to ask for 2 different changes in our panfish jig selection. They ask for a heavier jig. So now we added a 1/8 ounce in both the kip tail and regular jig. The other request was for a kip tail jig that had stripes on it. So after countless color combinations here are 10 new colors we created and tested this past year. All of the colors work very good on crappies, perch and bluegills. We also elected to go back to a gold hook on these new jigs and added a couple new colors of stripes.

GCK15 Silver head, white, red stripes

GCK16 Light green, chart, orange stripes

GCK17 Hot Pink, light pink, orange stripes

GCK18 Chart Pepper, chart, light blue stripes

GCK19 Light Pink, white, pink stripes

GCK20 Goldfish, Flo green, black stripes

GCK21 Purple Demon, purple, black stripes

GCK22 Black, red, black stripes

GCK23 Patriot, hot pink, purple stripes

GCK24 Silver, white, silver stripes

Holographic Casting Blade Baits

We have added 2 new colors that in the past were only available in the BB series. The colors are a chart-orange & black and a chart-green & red. We have carried CBB30 and CBB32 in 1/4oz & 1/2oz for many years and they are both great colors for fishing. We also added 5 brand new colors to give your customers a greater selection. Another great looking bunch of colors to add to your shelves.

CBB30 Chart/orange back, black squiggly lines

CBB32 Chart/green back, red squiggly lines

CBB35 Pearl white, chart head, orange belly

CBB36 Black back, dark green center, bright orange belly with black stripes

CBB37 Black back, pearl blueish body, chart belly

CBB38 Brown back, fire red center, yellow chart belly, black stripes

CBB39 Purple back, white center, lime and chart belly, red throat, glitter

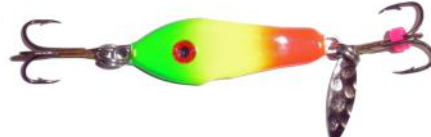

Holographic & Painted Hawg Spoons

Early last year we decided to make several new colors of our jigging spoon or what is known as the "One Eye". Some of the new colors I created are in the same scheme of productive colors that have been working for many years. Some of the colors are completely new. But I can tell you that every color has perform well above my expectations. Both the walleye and saugers have been eating these new colors up. This a lure you want to add to your selection.

These new colors only come in 1/2 and 3/4oz

LS65 Purple/pink/white

LS66 Green/chart/orange

LS67 Red/purple/chart

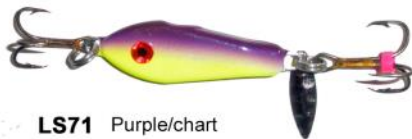

LS68 Pink/chart/red

LS69 Black/white/orange

LS70 Blue/white/pink

LS71 Purple/chart

LS72 Pink/chart

LS74 White/blue-orange-chart dots

LS75 Purple & white pink-chart-orange dots

LS77 Red & chart/black-orange-white dots

LS78 Pink/chart/white

Holographic Blade Baits

We have added 7 new colors to this line. The Purple & chart and Pearl white are colors that we've had for better than 1/2 of last year. 35 thru 39 just came in late this fall. On the first day we tested them all 5 new colors caught multiple fish. There are some beautiful colors here to add to your selection. We call # 36 dirty perch because it looks just like a perch that has spent a lot of time in the weeds. 37 looks like black, white & chart. But when you tilt the blade just a 1/8 of an inch it takes on a milky bluish tint. #7 is a mock up or the red craw color. 39 just speaks for itself, just an awesome color. All of these colors have produced good numbers since we got them in not too long ago. These colors are available in both 1/4 and 1/2oz

BB16 Pearl white

BB20 Purple prism, char belly

BB35 Pearl white, chart head, orange belly

BB36 Black back, dark green center, bright orange belly with black stripes

BB37 Black back, pearl blueish body, chart belly

BB38 Brown back, fire red center, yellow chart belly, black stripes

BB39 Purple back, white center, lime and chart belly, red throat, glitter

Our Mission

- 1** To continually research, develop, manufacture, and distribute superior products. Our goal is to provide you with quality fishing tackle.
- 2** To consistently monitor quality at the highest level and strive for continued improvement. We want to work with each individual customer, listen to your needs, and help create and produce the products and colors necessary to insure your success.
- 3** To help you continually build your customer base, loyalty, and trust. Our goal is to fill all orders as fast as humanly possible and to work with you one on one to create the means to be the best and continually grow.
